

Defendant's Ex. 1883A
Case No. _____
Court Clerk

C O P Y

Provo, Utah, April 21, 1936.

Mr. T.F.Wentz,
Commissioner of Provo River,
Provo, Utah.

Dear Sir:

We, the undersigned, Board of Directors of the Smith Ditch Company, and stockholders of said company, hereby file this objection and protest against conveying through the West Union Canal company and the Smith Ditch, the water equivalent to approximately three shares of stock of the Smith Ditch Company, requested to be delivered through said canal by A.L.Tanner in his letter dated April 20, 1936, for the following reasons:

1. That as long as there is high water available in the Provo River, the said canal will be used and will carry water to its full capacity; said water will be diverted and conveyed to the owners thereof, and there will be no space in said canal to convey the water requested to be delivered through the same by the said A.L.Tanner.

2. That no tickets could be issued to the said A.L.Tanner for said water, for the reason that the water he requests to be conveyed to him through said canal, cannot be placed in the canal at the present time for the reason that the canal is now carrying its full capacity; and the said water is being diverted to the stockholders and the owners of the water.

Respectfully submitted,

(Signed by the following.)
